

BAROLO, BARBARESCO, MOSCATO ON E-BIKE

Nowhere else in the world is there a place with such a high concentration of glorious wines like the Langhe and Monferrato region. Most wine lovers know Barolo, Moscato and Barbaresco, but only a few are aware of the fact that their production area is quite small, only 34 hectares in total, four times smaller than London and two times smaller than Paris.

We will be cycling across an intimate landscape, along light traffic and predominantly paved roads, through hilly terrain and small valleys. The landscape will be like a miniature mosaic of woods, vineyards and farmland. With medieval hamlets lying on strategic high places, usually with a castle or a church at the highest point. Our top class E-Bikes are the perfect solution to easily reach them. During the day we will have a chance to visit renowned cellars and sample their best vintages, visit villages and museums, or enjoy a cappuccino in a bar with the local folk. And we will take the time to take pictures from panoramic spots. A tasty picnic lunch and a sumptuous dinner in some of the most appreciated "trattorias" will help us discover traditional recipes and flavours.

Barolo, Barbaresco & Moscato wine tour is a trip designed to give you the best of our land.

DAY 1 - ARRIVAL

Meeting and welcome dinner

DAY 2 - BAROLO WINE ROUTE > 45 km

The hills of the King of Wines
